

LAKE OF THE PINES ASSOCIATION RULES & REGULATIONS

Contractors/Workers and Others (SR-10)

1. Lake of the Pines has a duty to control access into the community. In the ordinary course of business contractors, subcontractors, work persons and suppliers need access in order to provide services to the membership. In accordance with the following set of rules and procedures certain accommodations are offered in order to ease the burden of ingress.
2. Be it known that these accommodations are exclusively for persons actually performing work on a property or a service to members within the Association. Therefore, no contractor, worker or otherwise who enters by any of the means described herein will be allowed to enter if they are accompanied by family or friends. They may enter with a pet, if the pet is kept under the owner's control while the work is being performed.
3. All contractors, subcontractors, work persons, suppliers, and certain vendors other than residents, who have been engaged to perform services for the construction, improvements, or maintenance of homes/property in Lake of the Pines (which includes landscaping, tree trimming or painting) shall be afforded entry upon presentation of an LOP Business Vehicle Decal or Business Employee Entry Card w/photo issued by the Association, or as otherwise specified in the Gate Entry Procedures of the LOP Policies and Procedures. This restriction does not apply to utility companies and delivery services such as water, power, telephone, Waste Management, propane and fuel oil companies, postal services and communication service providers.
